

0W-8

Fully synthetic premium engine oil with ultra-low viscosity, specially developed to meet the high demands of gasoline hybrid engines. Additive technology ensures the best wear protection and engine cleanliness, the lowest oil and fuel consumption and the highest engine efficiency.

Properties

- Optimal for hybrid vehicles that require a lubricant of this specification and viscosity.
- Provides outstanding protection against wear, lowers oil and fuel consumption, keeps the engine clean and ensures fast oil penetration.

Meets requirements and Specifications
